2006 CRUISE INFORMATION

THE R.M.S. SEGWUN

Built in 1887, The RMS Segwun is the oldest coal-burning steamship in North America. This elegant 99 passenger vessel is a heritage artifact beautifully restored and preserved. Her gleaming woodwork and Victorian style, recall a more elegant past, when travel by rail and water preceded the era of the automobile. The Segwun provides a unique setting for corporate functions as she plies the waters of Muskoka's greatest lakes. The perfect choice for a true taste of Muskoka tradition, the Segwun will provide the perfect setting for a pre-dinner hors d'oeuvres cruise or for an elegant 3-course meal. All RMS Segwun cruises depart and return directly to the Clevelands House dock.
